Art Unit: 1623

Upon further consideration and search, the Final Office Action of February 15, 2007 is hereby withdrawn in order to introduce a new ground of rejection

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Kumar et al (U.S. Patent No. 6,077,643).

Kumar et al disclose a polymer substituted by 2 to 30 mole percent of naphthalene (column 4, compound of formula III and column 5, lines 12-16 and 55-63).

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terminology “polymer is... water soluble derivatives sugars” renders claim 4 indefinite since sugar is not a polymer.

Claims 2, 3, 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicant's arguments filed March 12, 2007 have been considered but are moot in view of the new ground(s) of rejection.
